HIFU 4 IN 1 Machine

High Intensity Focused Ultrasound for skin lifting & tightening

Function

Remove fine wrinkles around forehead, eyes, mouth, neck, etc

Lifting and tightening skin

Improving skin complexion and elasticity, shaping contour

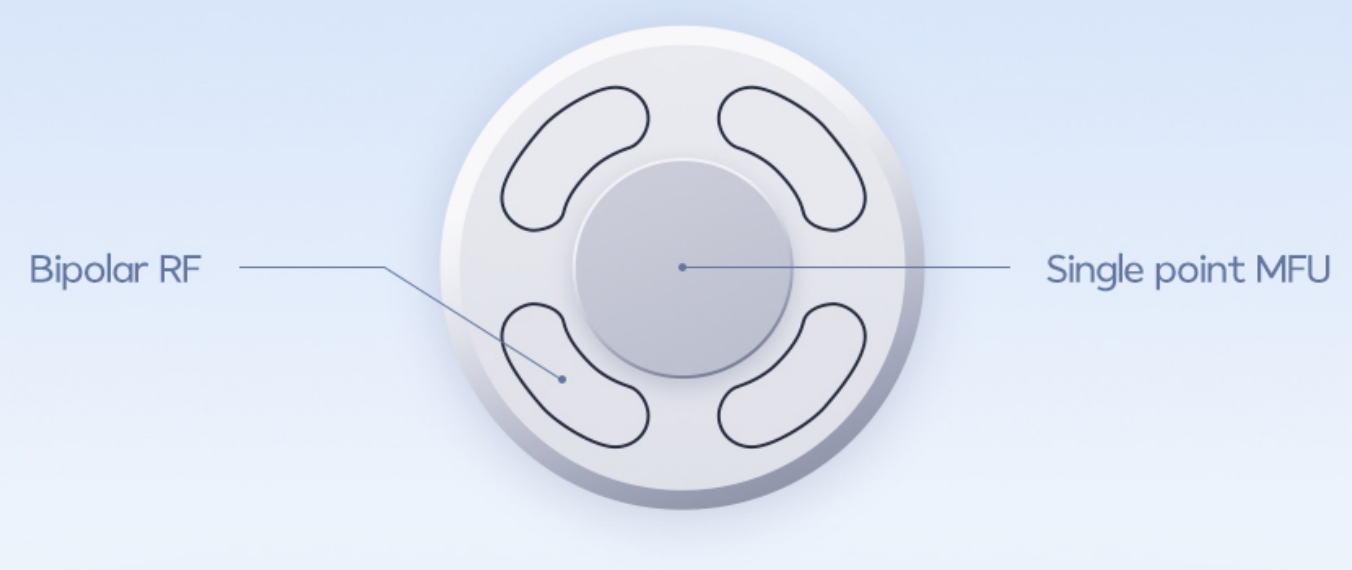
Body slimming, fat reduction

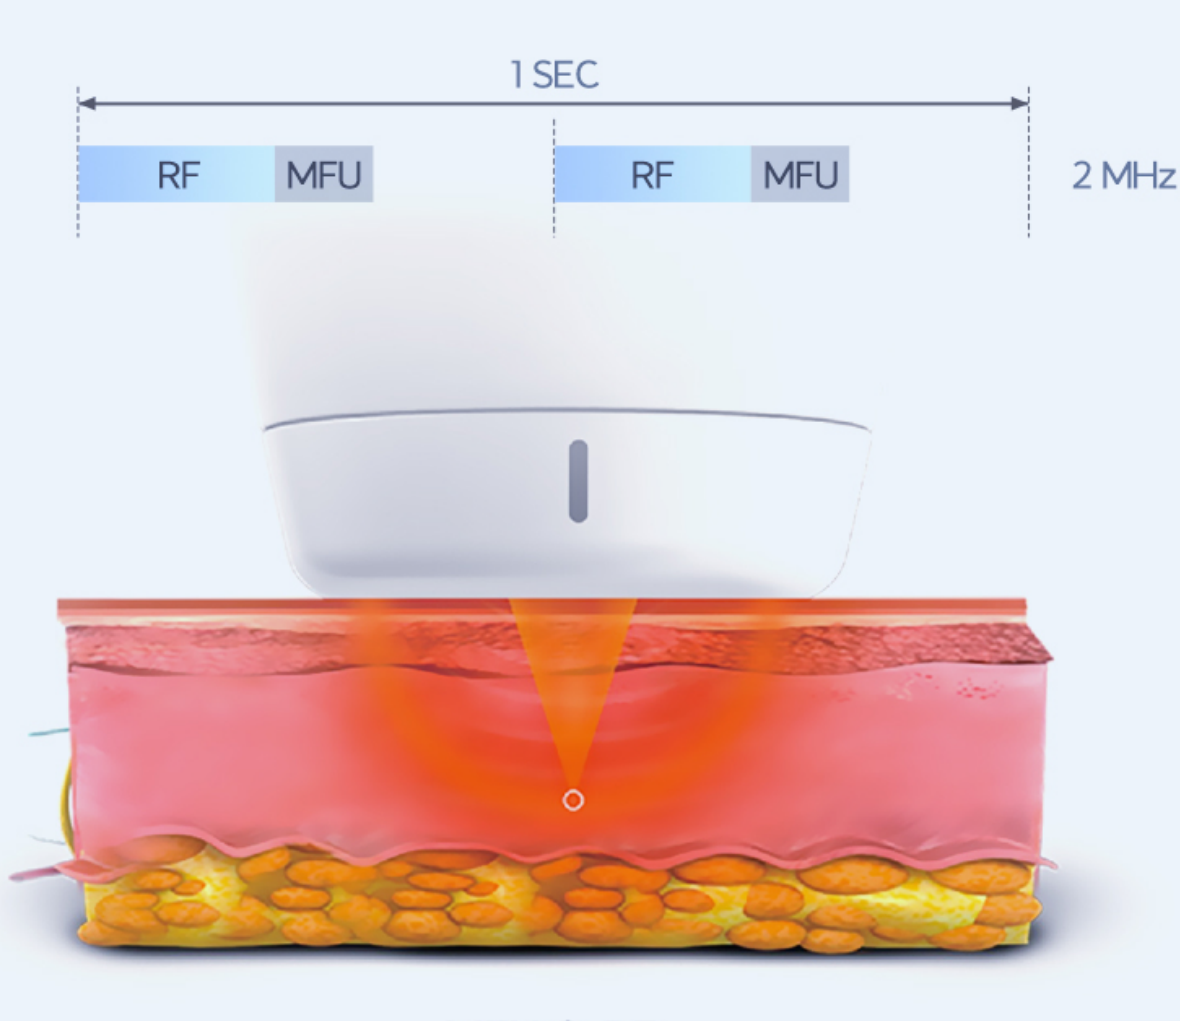
Innovative innovative technology

Micro-focused Ultrasound & Radio Frequency

The world's first "MFU+RF" SD synergy dotting technology

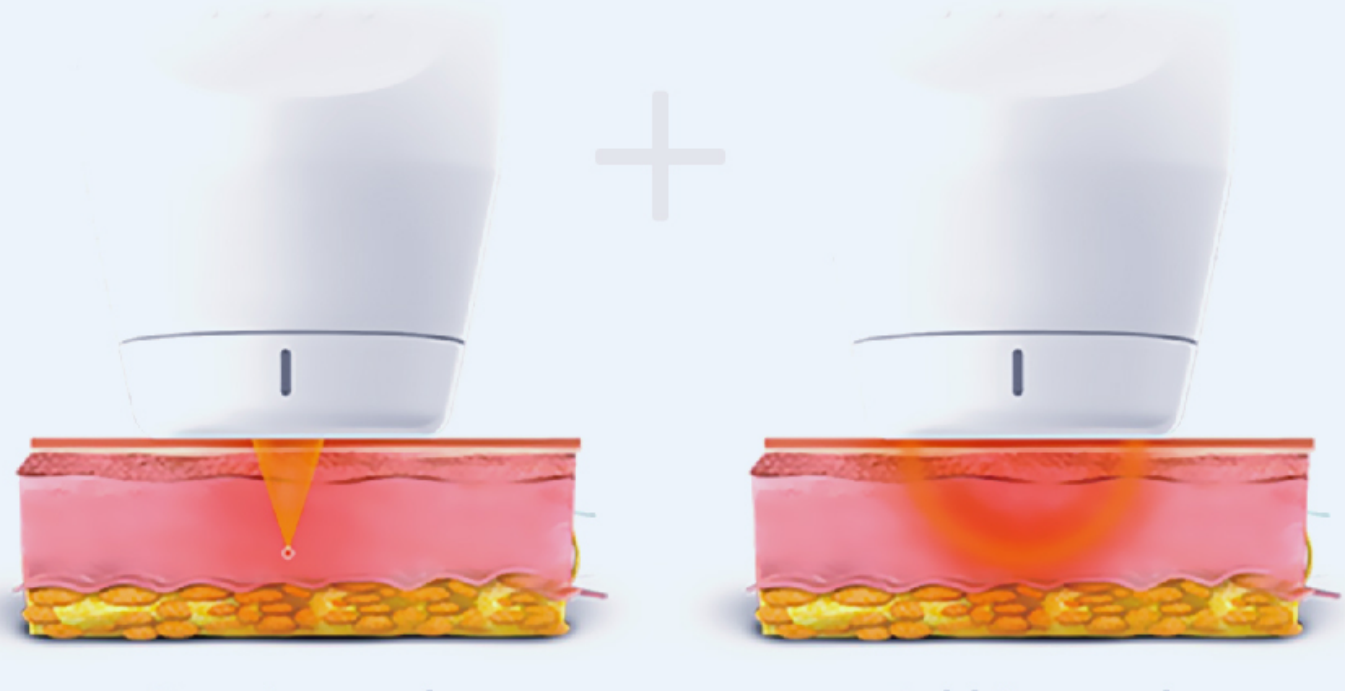
Optimum treatment results with significantly reduced side effects such as pain and swelling Utilize SD point-focusing lifting technology to achieve double lifting effect





MFU & RF

Firm/lift/shape

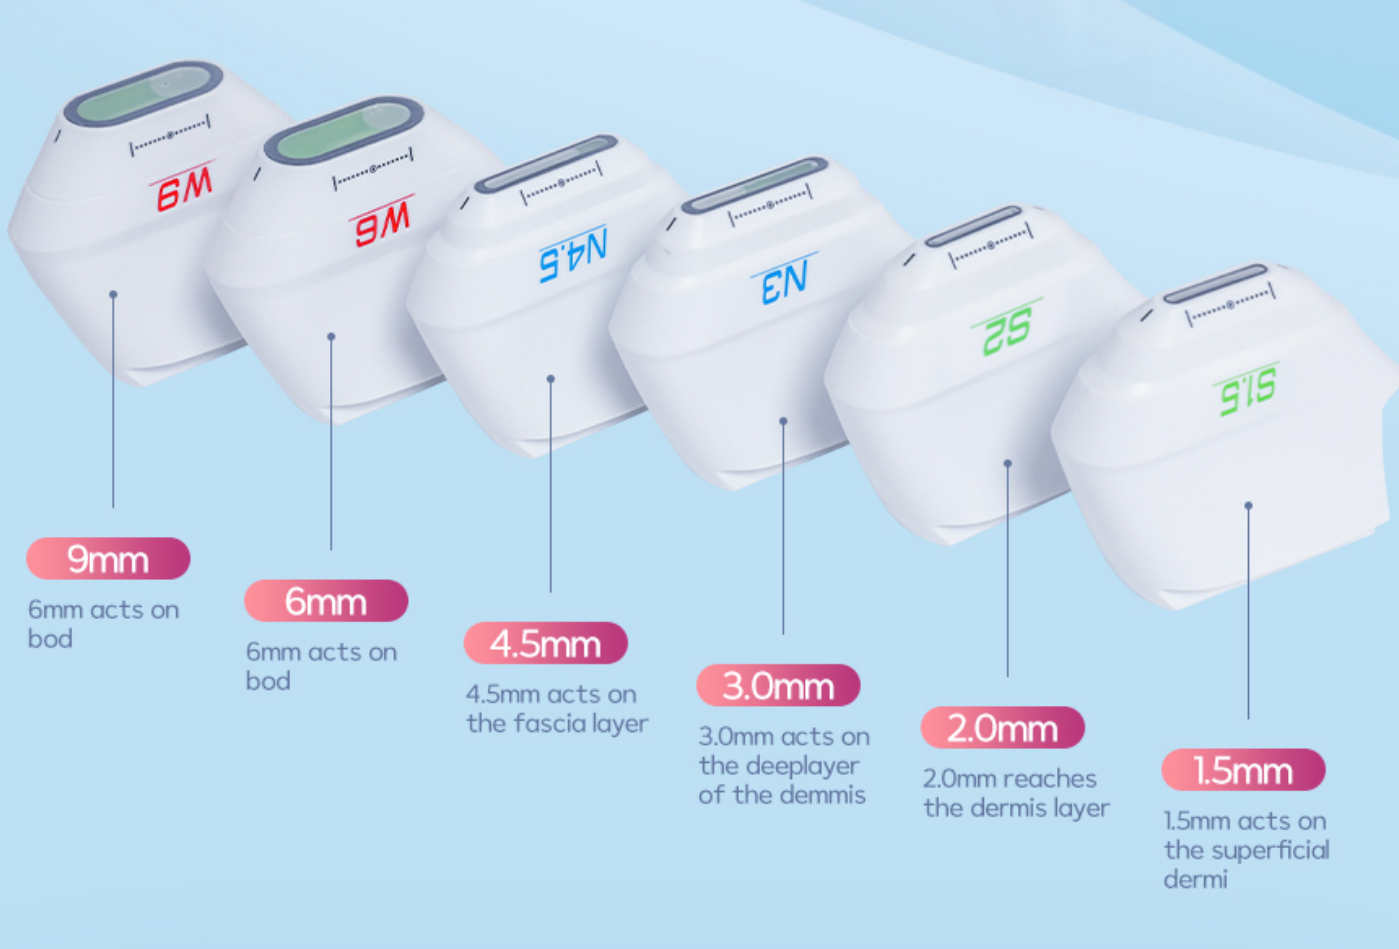


Dotting mode

Rubbing mode

Cartridges

Two handle meet big area and small area treatment

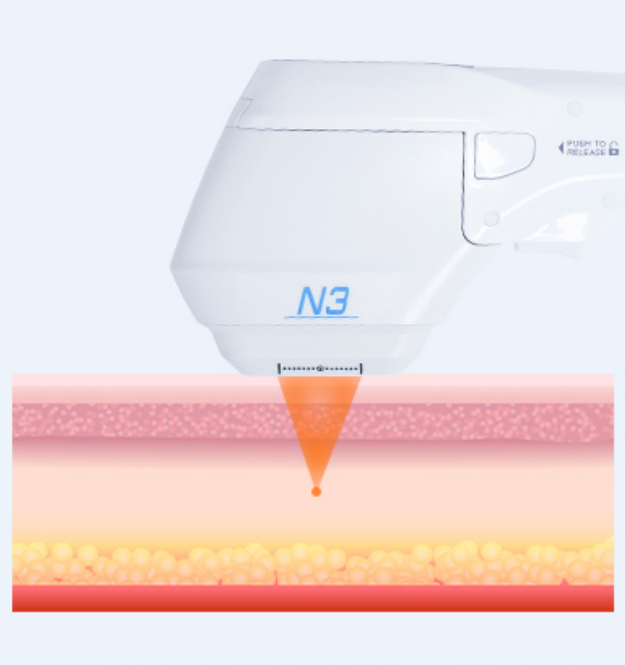


9mm
6mm acts on bod
6mm
6mm acts on bod
4.5mm
4.5mm acts on the fascia layer
3.0mm
3.0mm acts on the deeplayer of the demmis
2.0mm
2.0mm reaches the dermis layer
1.5mm
1.5mm acts on the superficial dermi

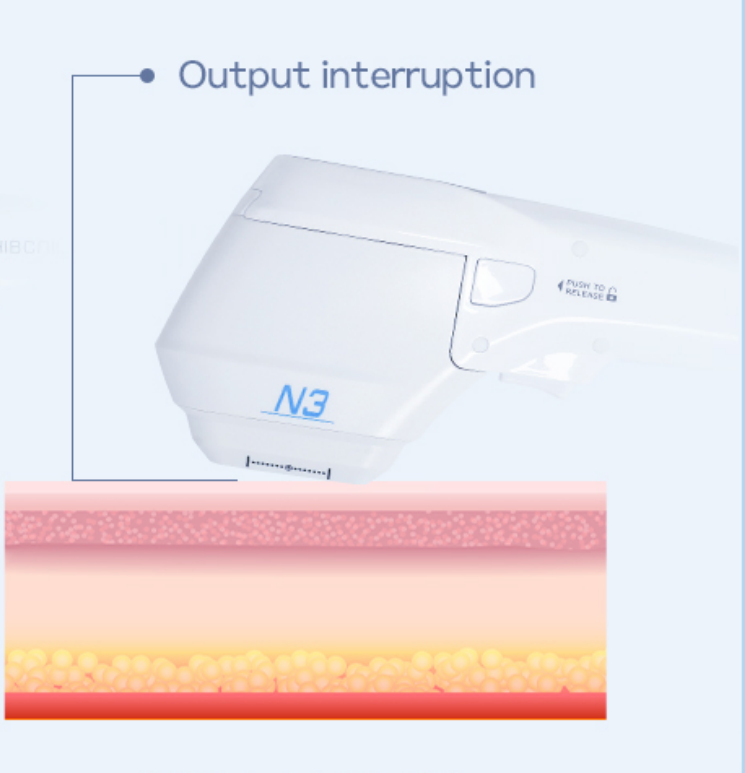
3-layer safe operation guarantee certification

Dual patent approved security

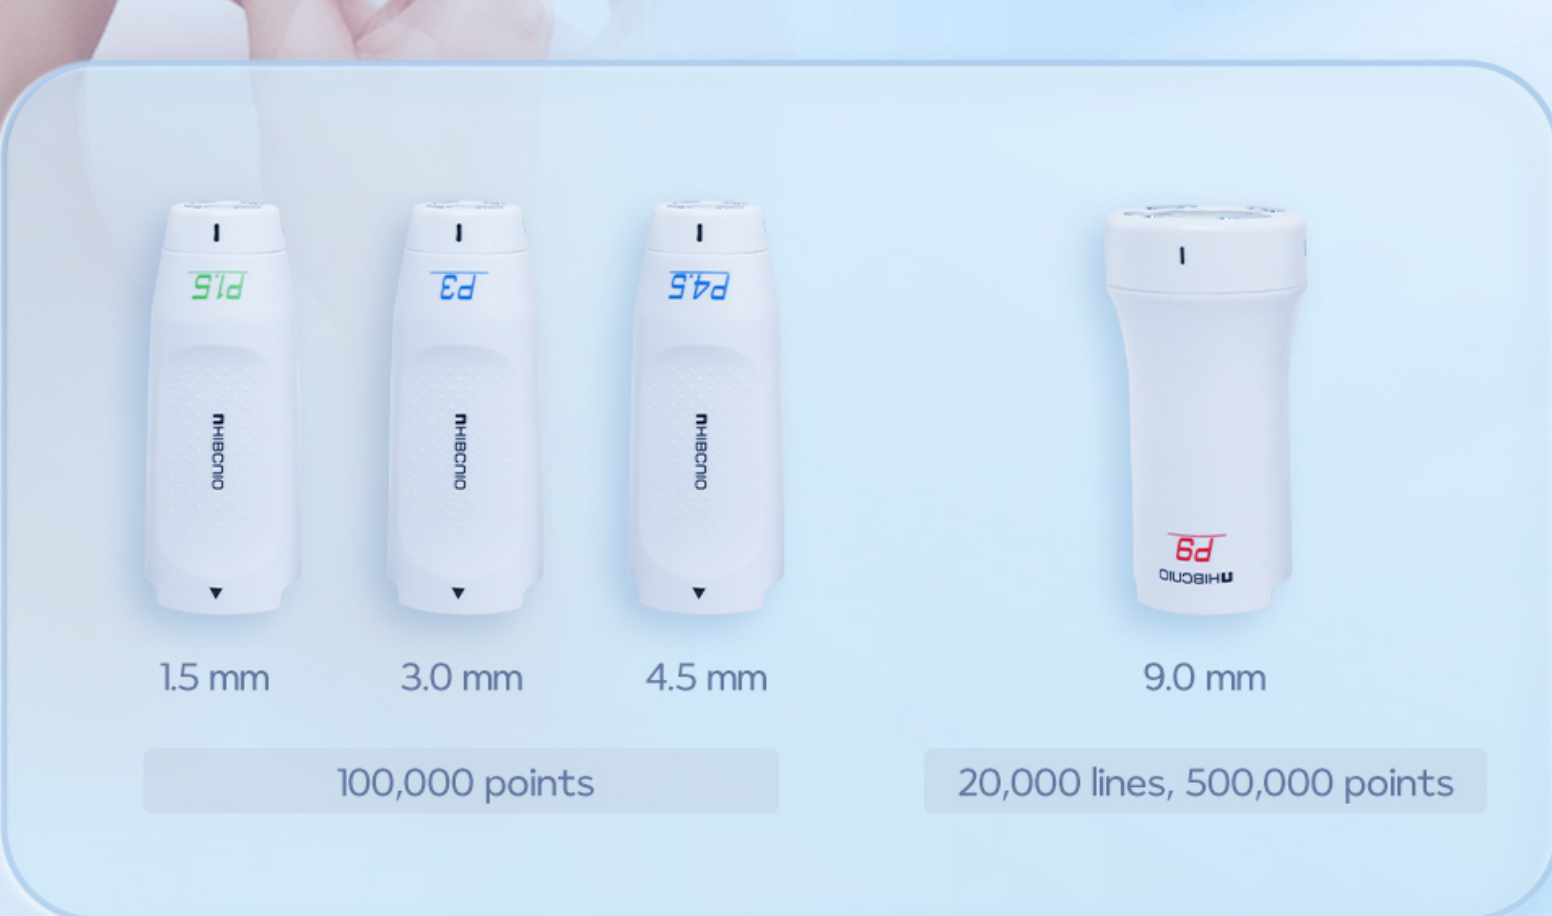
FL contact sensor: If there is no contact with the skin, the energy output will be stopped
FL motion sensor: prevent repeated firing of the same location to avoid burns
SD rotation sensor: prevents repeated treatment of the same area, perfect for safe treatment



When in full contact with skin,
Energy output is normal.



If it leaves the skin,
The output will stop.

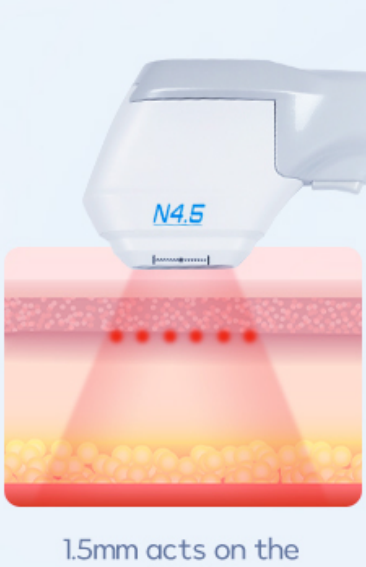


- ☑ According to different skin types and treatment areas
- ☑ Adjustable depth to treat dermis to subcutaneous fat layer
- ☑ The world's first SD point lifting technology (Synergy Dotting)
- ☑ 4 styles: 3 styles for face, 1 style for body

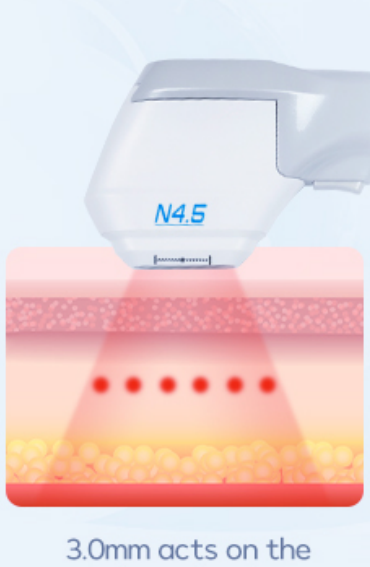
Treatment principle

Non-invasive method by using HIFU transmitting from transducer to the targe

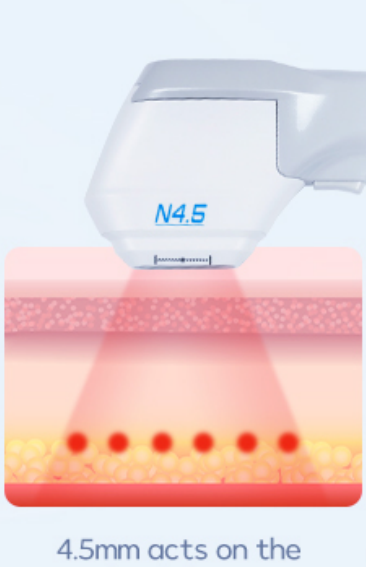
V-HIFU uses high-intensity focused ultrasound. The temperature under the skin can reach 60' -75 , and it heats deep tissues in a way that does not damage the skin surface. According to the different parts of the diagnosis and treatment, the ultrasound is focused to generate high energy. Which acts on the dermis and fascia layer of the skin, stimulates the regeneration and reorganization of collagen, tightens the contour, removes wrinkles and tightens the skin.



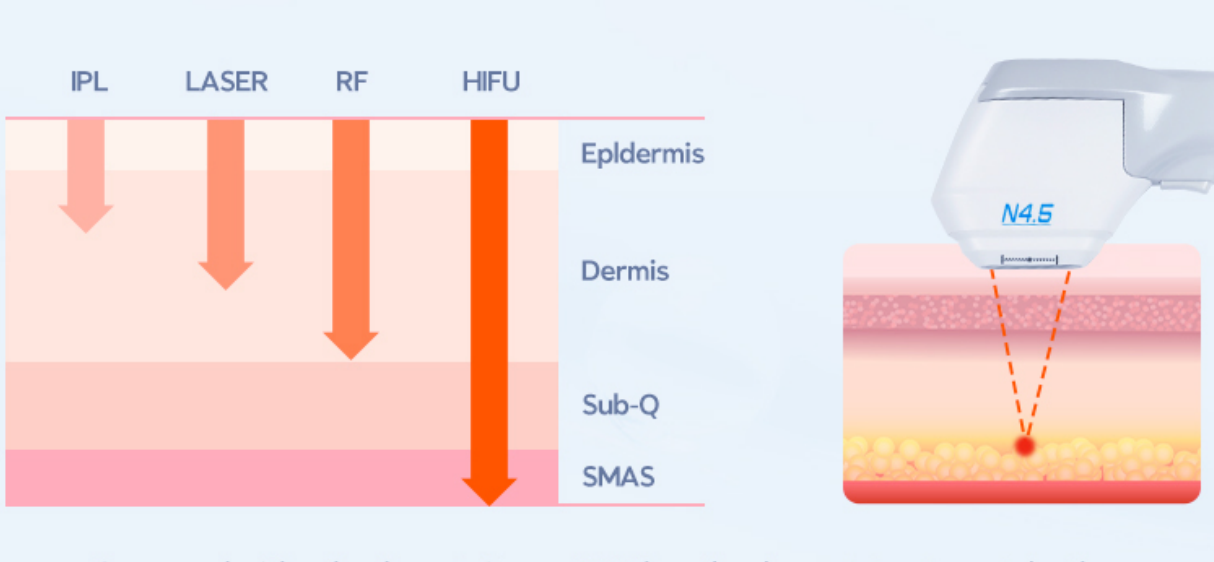
1.5mm acts on the superficial dermis



3.0mm acts on the deep dermis



4.5mm acts on the fascia layer



Compared with other beauty items , HIFU has the deepest treatment depth , can reach the smas fascia layer

LCD display

Simple auxiliary LCD makes it easier to set and adjust the output, Provide 2 methods of treatment handle button or foot switch, Significantly reduces the weight of the treatment head, making the treatment process quieter and lighter.

4 sets of therapy sticks

4 sets of treatment rods can reduce the time of changing the treatment head each time and complete the treatment quickly, Choose from 4 tailor-made treatment heads and install them on the treatment wand.

Diversified treatment heads with new technology

The synergy between MFU and RF is a new technology that is more valuable than a single technology
One device can target facial and body contours

Reduce treatment time

4 probe handles reduce time when changing treatment heads
Simultaneous treatment with MFU and RF speeds up the process

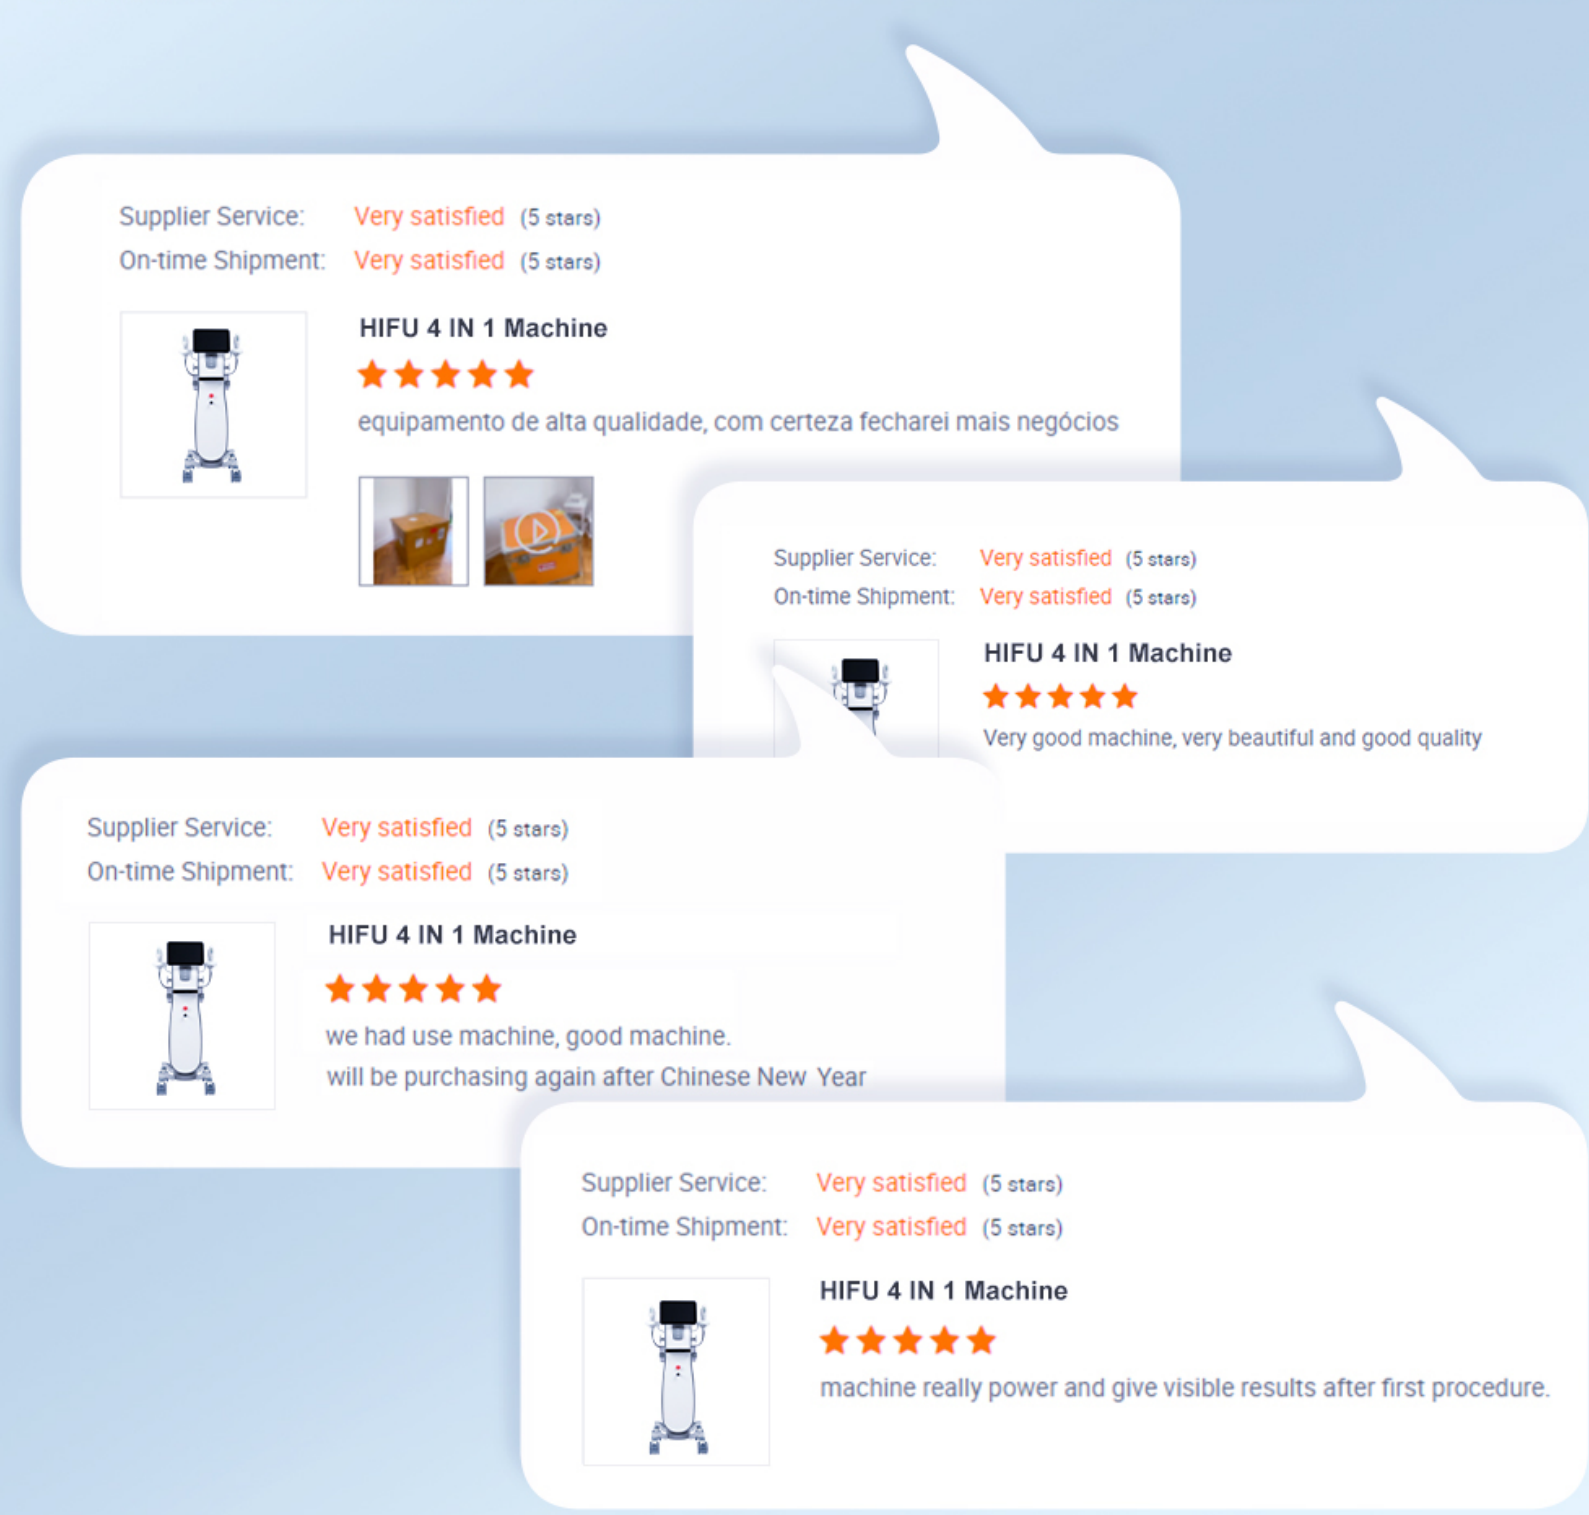
Tailor-made treatments are available

Equipped with Auto Mode & Customized Mode (Manual Mode)
For simplicity and convenience, the treatment site and treatment parameters of each probe can be queried, and commonly used parameters can be saved.

Advantage

- Instant result reach to 30%, after treatment result reach to 70%, good result will be in the third month and can last 1year
- The depth can reach deep fascia SMAS layer,can treat the epidermis, dermis, fascia and adipose
- Short treatment time : 30min for face cure, no bleeding and downtime
- The thermal plastic treatment head can improve body shape and reduce weight
- Non-invasive method for skin lifting and tightening, collagen remodeling and regeneration
- A variety of different types of handles can achieve different treatment effects, and each handle is equipped with different depths of treatment heads to achieve layered anti-aging

Client feedback



Supplier Service: Very satisfied (5 stars)
On-time Shipment: Very satisfied (5 stars)
HIFU 4 IN 1 Machine
★★★★★
equipamento de alta qualidade, com certeza fecharei mais negócios

Supplier Service: Very satisfied (5 stars)
On-time Shipment: Very satisfied (5 stars)
HIFU 4 IN 1 Machine
★★★★★
Very good machine, very beautiful and good quality

Supplier Service: Very satisfied (5 stars)
On-time Shipment: Very satisfied (5 stars)
HIFU 4 IN 1 Machine
★★★★★
we had use machine, good machine.
will be purchasing again after Chinese New Year

Supplier Service: Very satisfied (5 stars)
On-time Shipment: Very satisfied (5 stars)
HIFU 4 IN 1 Machine
★★★★★
machine really power and give visible results after first procedure.

Good Team

We hava a professional team,can solve problems and provide better services.

About Transportation

We have strategic cooperation with many global logistics companies such as DHL,FedEx, EMS,etc.global dedicated line transportation.

- OEM/ODM
- 7-15Days Logistics
- Video Training
- 2 Years Warranty
